

# Letters to Worldnet Grace Ministries

## September & October 2012

*Note: Some of the letters below make references to our having sent out mp3 players with our messages stored on them. We would like clarify that we have not sent out any products or materials, nor do we have the resources to do so. We are indeed very grateful for those anonymous donors who are providing these items and not taking the credit for their generosity.*

*("USM" abbreviation = United States Military)*

### September 2012

Thank you for the soldiers' message. {History of the World #74}

I knew God had something to tell me. There's no doubt He used you. I was asking him if I could get out of here alive.

What He told me through you was how to get out of this world alive by believing in Jesus.

God bless you.

**USM**

I honestly think I would have gone bonkers without these Bible lessons. **USM**

Thank you so much for clearly defining all of those terms I had lumped together, such as justification, redemption and the 7 others. What a blessing!

{Pre-History of the World #8}

**New Mexico**

I love all of these sermons. The explanation of the 9 benefits of salvation was so powerful.

{Pre-History of the World #8}

**Baton Rouge, Louisiana**

Great presentation of the age of the earth issue. {Pre-History of the World #5}

I'm amazed at the hostile reactions I'm hearing.

The study of the 9 benefits of trusting Jesus was just terrific.

{Pre-History of the World #8}

And what a great side benefit. My husband is an English professor (unbeliever) who loves to analyze and parse literature. As he was "overhearing" he became very attentive and told me it was an intriguing presentation. I caught him downloading some of the others!

**U. S. West Coast**

Thanks for your great messages. They keep me calm and at peace in a place where that would be impossible otherwise.

**USM**

The care packages from home connect me with my family.

Your care package connected with me Jesus.

Out in the desert I was born again.

**USM**

When I saw the title of the message "Adam's sin on our account" I was shocked. As you began to explain it, at first it got worse and seemed so unfair.

{Pre-History of the World #9}

Your picture of the golf tournament was just perfect. It made it so clear.

And it reached my son, who has had zero interest in spiritual matters. I "casually" mentioned that I had heard a great story about Jack Nicklaus (his hero).

He grudgingly listened then loved it. He said, "That guy rocks!" (I think that's good!)

He has expressed an interest in listening to others, especially when he saw the Bob Dylan music. PTL!

**Nashville, Tennessee**

I was astonished to hear that a fellow scientist was giving Bible lectures.

Your insights are unique and extremely thought provoking

**California**

Why do you keep saying that faith in Jesus is the only way to heaven?

**Johnny's reply:**

Because faith in Jesus is the only way to heaven

You are in a definite downward spiral.

**Johnny's reply:** That's great. I would hate to think I was in a rut.

Thank God for leading me to your studies. Finally I have a Christian resource I am not embarrassed to share with my unbelieving colleagues in the physics department.

{History of the World #s 53 & 54; Pre-History of the World #s 3-5}

They are being very well received.

**Michigan**

Your great lessons make me laugh,  
keep my feet steady,  
my hands at peace,  
and my mind on Jesus.

**USM**

Your messages are keeping me sane. **USM**

I thoroughly enjoyed the lesson on people being made in the image of God.

{Pre-History of the World #6}

Next day I had my sights focused on a head peeking out of the top of the enemy tank. It struck me that he was made in God's image just like I was. A sobering moment.

Shot him anyway. As you said, we are to defend ourselves against our enemies.

{History of the World #74}

One more thing. Your message of salvation in Jesus turned me from being God's enemy into being his son.

**USM**

I heard the people on the radio discussing your study of the Judgment Seat of Christ. They were so hostile I had to check it out.

{History of the World #58; The Blessing Place series}

I had always struggled with trying to understand how it could be that my sins were totally forgiven at the cross, but I would have to endure this examination of my life.

Your sermon made it so clear that would never happen that I was full of deep joy.

The next week they were at it again. I called in. They didn't keep me on very long. But it turns out they received a lot of calls just like mine. Not a good day for them!

How hilarious that God used their anger to direct people to the site! Hallelujah!

### **Panama City, Florida**

The upside down / right side up was so powerful.

It brought the whole concept of old self / new self into a clear understanding.

{Pre-History of the World #10}

### **Salt Lake City, Utah**

The explanation of the age of the earth and the six days jarred my thinking.

{Pre-History of the World #5}

Thank you for presenting the Biblical scenario of an old earth.

That was really an excellent presentation.

### **Big Rapids, Michigan**

God does indeed have a sense of humor.

He brought me from Houston to this desert hellhole so that I could hear a guy from Houston telling me I needed to be saved.

I did and I was. Thank God.

**USM**

I am so grateful - words cannot express how grateful I am for the gift of the mp3 player loaded with these messages.

That little device has become God's voice to me.

That voice saved me and now keeps me going.

**USM**

Your study of Shakespeare was so outstanding that the entire series *{History of the World}* is part of our curriculum for our Home School group.

{History of the World #45}

I and so many others are so touched that you offer these unequalled resources at no cost. That is amazing. May God continue to provide your ability to do so.

**Mobile, Alabama**

I love these studies so much. I can hardly wait for the signal that there's a new one posted.

The upside down lesson was one of the best I have ever heard.

{Pre-History of the World #10}

As a practicing psychiatrist, and, above all, a believer in Jesus Christ, I have often heard that Christians should not be psychiatrists, or that Christians should not need to seek to receive help from people such as myself.

Your study on the conscious vs. unconscious mind, dovetailed with the ego, id and superego warmed my heart.

{Pre-History of the World #11}

The presentation was clear, concise and accurate. I learned a great deal from this.

I am especially delighted to learn how I can integrate my remediation therapy with the Bible.

**Baltimore, Maryland**

Your lessons are the only bright spot in my day. **USM**

Part I. So you have all the answers?

Jesus is the only way to heaven?  
A good Muslim will not go to heaven?  
A good Buddhist will not go to heaven?  
The Bible is the only authority?

Part II. Would you like for me to send you:

Some critiques of your studies?  
Some of my teaching outlines for religious studies?  
Some charts I have created?

**Johnny's Reply:** Part I: No, Yes, No, No, Yes

Part II: None of the above

I hope I passed.

Your presentation of the unconscious mind driving behavior was spot on.

{Pre-History of the World #11}

I am a professor of psychology and am not knowledgeable at all about the Bible.

What a wealth of information you gave out. As a result of listening (twice so far) I have gained valuable insight. I actually intend to explore more of your studies into the more religious based presentations.

**Wisconsin**

Wow. Thank you for the iPod with the Bible studies. Best package I ever opened. My buddies kept bugging the fire out of me to listen to some of your lessons. Just the thought of listening to a preacher was disgusting to me.

Just to shut them up I gave it a try.

I listened to the one where you were describing how God is with us soldiers out here in the field. I actually enjoyed it but I didn't want to admit it.

{History of the World #74}

Fortunately one of the guys offered to download some to my player.

I listened to three in a row instead of sleeping. After the third one I got it. All I had to do was trust in Jesus. Believe he died for me. He's my savior.

I never thought I'd ever be happy again. Now I can't be any happier. Thank you so much.

**USM**

These studies are awesome. They're so interesting.

I'm not embarrassed to share them with the guys. They all like them. **USM**

Great lessons. I listen to them every single evening. **USM**

I was shocked to see that you have decided to stop teaching the Bible and instead start teaching about the atheist Sigmund Freud.

{Pre-History of the World #11}

That was a bad mistake.

**Ottawa, Canada**

**Johnny's reply:** It was just a Freudian slip.

## **October 2012**

Outstanding presentation on quantum mechanics. {History of the World #s 53}

Very simple and enjoyable, and also accurate.

I'm prejudiced but I never thought I would take any preacher's science seriously.

We're following you around here with great interest.

**California**

The lesson on Vincent Van Gogh saved my life. {History of the World #51}

Changed my mind about taking my life.

I saw myself spiraling deeper into hopelessness.

Oh, thank you for showing me how to spiral out of myself and reach out to Jesus who died for my sins and gives me an anchor for my life.

**Manhattan, New York**

Hello to my new fellow warriors back home!

What a turnaround in my life thanks to your studies - and what great timing for God to intervene in my life when he did.

My first year here in \_\_\_\_\_ I was just hoping to make it back home alive.

A few months ago that all changed. Since that time I've just been hoping to stay alive another few minutes. I desperately needed something to keep my mind on something else than this constant threat. But what could possibly do that?

Your lessons did it.

At first they were an outstanding combination of intellectual stimulation and humor which gave me a welcome relief from fear.

Then they became a source of deep concern. I always thought I would go to heaven. I went to church, I was a good person.

Then I heard your explanation that my good life wouldn't cut it with God. All those years in church I never heard that.

I also never heard the good news that I could be saved by just a one-time decision to believe Jesus dies for my sins.

Thank you for making it so clear and I hope God blesses you for what you're doing.

**USM**

I thought I was going to lose it until I heard your lesson about God being with us soldiers.

{History of the World #74}

Now Jesus is my savior and the Lord of hosts is with me. {Pre-History of the World #13-15}

**USM**

I applaud you for tackling the issue of quantum mechanics.

{History of the World #s 53 & 54; Pre-History of the World #s 3-5}

And I must say I was fascinated by the presentation. You offered up insights - and fresh new explanations -- many of us physicists had never thought of.

I wish more of your colleagues in the religious arena would present more studies as these.

I am enjoying these immensely and passing them along.

**California**

Quelle surprise de vous entendre parlant anglais! Au meme moment nous etions en train de parler au sujet de vous! Ces lecons sont magnifiques comme d'habitude!

**Rheims, France**

**Johnny's reply:**

Vous parlez du diable et il montre ses cornes... Que Dieu vous benisse!

I have enjoyed the History of the World lessons.

We've never heard anything like this.

You incorporated arts, literature and science from every age. Yes indeed.

History has a purpose and the controlling agency is the hand of God!

**Edmonton, Alberta, Canada**

I thank God every day for sending me to a place of misery and fear.

He sent me here because that's where He was waiting for me.

I also thank you for the introduction to Him.

I've trusted in my savior Jesus.

**USM**

I'm at a loss for words to express my gratitude for your ministry. As an Army chaplain I'm forced to be all things to all people and honor diversity.

But I'm free to distribute whatever is sent to me. Your messages are a great gift I can now give out freely.

I assure you they are impacting lives. Young scared soldiers are being saved and kept vigilant with remarkable peace.

Here's a salute.

**USM**

What a week. Twice I was spared from being killed. I knew it was not normal.

But I didn't know why God would help me.

I told my buddy who loaned me his iPod and I listened to your talk about the angels protecting people from dying before they were saved.

{Pre-History of the World #15}

Well it worked. They protected me and I was saved. This is just awesome.

**USM**

The angels study was such a blessing to me. {History of the World #15}

And the timing was perfect after losing my husband.

I've listened 3 times with tears of joy

### **Joplin, Missouri**

Very solid presentation of the complexities and nuances of quantum mechanics.

{History of the World #s 53 & 54; Pre-History of the World #s 3-5}

Few professionals would attempt such a task but your lecture was intellectually stimulating.

I was already intrigued when I googled some technical keywords and your site came up. Now I understand why.

I've already referred the site to some colleagues, some of whom already were aware of it. I may explore some of the Bible lectures.

### **Illinois**

Every day I look forward to night when I willingly give up an hour of sleep to hear your lessons.

### **USM**

Thanks to you for your messages. They take my mind off of the daily stress. **USM**

Your sermons sustain me like nothing else can. **USM**

I don't like the style of these messages. It doesn't even feel like church.

It seems like college classes or lectures. That's what I don't like.

**Richmond, Virginia**

**Johnny's reply:**

Well DEFINITELY don't listen to the next lesson. We're having a pop quiz!

You need to get a dictionary.

**Johnny's reply:**

If that's what yours is called I'd get another one
